## Abstract

ICEMSE is a First International Conference on Emerging Materials in Science and Engineering 2026 organized by the Department of Chemistry, SRM TRP Engineering College, that intended to provide a common platform for knowledge sharing among researchers, academicians, practitioners and industrialists in the areas related to Science, Engineering and Technology. It provides a forum for discussing the most recent innovations, trends, experiences and concerns. It also stimulates efforts to integrate the latest approaches to strengthen and shape its future by fostering communication among participants. The conference will also include keynote address by renowned Academicians, Scientists and Industrialists. The conference will provide the authors and listeners with opportunities for National and International collaboration and networking among the Institutions from India and abroad for promoting research and developing technologies.

**Keywords:** Introduction; Research work; characterization; Analysis; Conclusion.
