

Dr. S. Anandan

Professor

National Institute of Technology,

Trichy

Dr. S. Anandan, Professor of Physical Chemistry hailing from Tamil Nadu, India, is leading the research group “Nanomaterials and Solar Energy Conversion Lab”. His research interests include hybrid semiconductor nanomaterials and their applications in Dye-sensitized solar cells, super capacitors, perovskite solar cells, photocatalysis, electrocatalysis, fuel cells, and biosensors. He is the author of 400+ research articles, 30+ book chapters, two international patents and his h-index is 57. He is serving as an editorial board member in Ultrasonics Sonochemistry - Elsevier Journal. 28+ Research Scholars and 57+ M.Sc. Students have completed their degrees under his guidance. In addition, five Ph.D. and two M. Sc. students are pursuing research under his guidance.
